## Please Note:

### \*AIRBAG NOTICE

The 2001 4Runner features a driver & front passenger airbag Supplemental Restraint System (SRS) which activates only in a front-end collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate, in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system.

*Seat belts must be worn at all times by all occupants.*
